

QuickConnect™ Handles

Interchangeable mop handles; stainless steel, carbon fiber, and aluminum

Contec's QuickConnect handles offer maximum flexibility for cleaning and disinfecting in controlled environments. QuickConnect is a cost-effective solution, offering a user maximum flexibility.

Invest in one of our interchangeable mop handles, which can be used with all Contec mop head frames. The mop head frames have identical "quick-connect" buttons which enable easy attachment to all sizes and styles of QuickConnect mop handles.

Handles are available in carbon fiber, stainless steel, and anodized aluminum. These come in with a variety of handle lengths, including telescopic options for reaching high ceilings.

Fully autoclavable at 121° C for 30 minutes.
